

## Data Sheet:

**Becom\_1HU\_PP**

**RAL7035\_Nf\_Nf**

**50\_8\_10GHz\_TE**

### Description:

The 8-port patch panel N-female to N-female offers several advantages over conventional patch panels. The jacks are mounted in a specially milled mounting hole, which, together with the counter nut, ensures protection against the rotation of the jack when the cables are connected. The easily replaceable labeling strip can be printed using a downloadable Excel file to ensure the correct assignment of the jacks. An optional cable support bracket is available, which is mounted at the rear of the patch panel to ensure that the cables are strain-relieved and can be neatly bundled.

### Technical Data:

**Color:** RAL 7035 Light Grey

**Dimensions:** 483x44x40

**Configuration:** 8 x Telegärtner J01024A0006

**Weight:** 568g

**Material:**

**Inner Contact:** Copper/Beryllium alloy

**Outer Contact:** Brass

### Electrical Data:

**Impedance:** 50  $\Omega$

**Max Interface Frequency (F max):** 10 GHz

**VSWR:** 1.018 @ 1 GHz

**VSWR:** 1.094 @ 10 GHz
